

Decision tree primary education children with cold symptoms
(Designed by BOINK, RIVM and pediatricians)

Cold symptoms =
Nasal cold, sneezing, and/or a sore throat

Children & COVID-19 tests

- Children do not need to be tested for COVID-19 with cold symptoms or other COVID-19 symptoms like a fever.
- If the child is seriously ill, please contact your family doctor (GP). Together you can decide whether the child need to be tested.

Period of staying home

If 24 hours have passed without the child or the person in the household having symptoms that could indicatie COVID-19, the child can continue to go to school. Please check this decision tree again before sending your child to school.
